

Baseball.

The outlook for another championship baseball team is most bright in Eureka but the people should not forget that it will cost considerable money to put a team in the field capable of winning the pennant. Whoever this camp goes in on any proposition whether it is baseball football or anything else where to win pride is at stake the people can be depended upon to give it the necessary support. The splendid baseball games in Eureka during the past two seasons not only kept the local people and local money at home but attracted hundreds of other people here all of which benefits the city as everyone knows. For that reason if for no other the business people should be willing to help support the team this season.

There is nothing particularly new in baseball circles. Moore who has been in this city for two months past has been taken from us by Eureka where a flattering proposition was tendered him. The boys have been 'trying out' a little and getting in shape in case we should have a team during the season.—Park Record

Ogden's line-up in the state baseball league will be about as follows. Henry catcher Nash and Hoon pitchers Mortensen first base Wessler second base Taylor shortstop Bluth third base Gimlin center field Leavitt right field Petzold left field Leatheby an Omaha pitcher and infielder will be used as utility man. All of these players with the exception of Leatheby are now in Ogden ready for their first practice.

Arthur Chivrell the local pitcher has decided to play with the Eureka team again this season notwithstanding the report to the contrary given out a couple of weeks ago. Chivrell is without doubt one of the best pitchers in the state and is liable to prove a hard nut for some of the other teams to crack.

Frank Lumley who caught for the Eureka team during the early part of last season has been secured by Manager Thompson. This will be good news to the Eureka fans as Lumley in addition to being one of the best ball players who ever appeared upon the local diamond is popular with the followers of the game. He has been living at his home in Union New York, during the past winter. On Monday Mr Thompson wired a proposition to him and he wired his acceptance the following day. He will probably arrive next week. It is Mr Thompson's intention to make Lumley assistant manager of the team.

Charlie Moore who played third base for the Eureka team last season arrived in town again last Friday night and will be found in the line up of the local team. Moore has been at Park City for a few months past and that camp intended to try him out as a pitcher until Eureka landed him. Moore refused to do any pitching last year because his arm was not in good condition but states that he expects to be in his old time form again this year. Manager Thompson will probably try him out in the box but Moore is a rattling good infielder. He is a heavy hitter and a splendid base runner making him a valuable addition to the Eureka team.
