This town envies Ogden's magnifi-  
cent sleighing.

We are to have a boom in music  
during the next few weeks.

A man who came in from Pleasant  
Valley last night says that snow is  
eighteen inches deep there.

To-night a woman and a child, ac-  
companied by a fine Newfoundland  
dog, were walking along the D. & R.  
G. W. track, as the passenger train  
was rushing in. Their backs were to  
the cruel steam monster, and the  
snow muffled the sound of its ap-  
proach. It was almost upon them  
before they realized their danger.

Then the woman and child sprang  
from the track into a snow bank, but  
the dog stuck to the track and was  
unangled and killed by the train. The  
woman and child forgot their own  
preservation from death, in their  
lamentation over the corpse of their  
four-footed friend.

It is 4 deg. below zero. God help  
the rich; the poor can freeze.

John P. Bluth was made a citizen  
to-day, in the third district court.
