The members from outside of the City will also provide for a joint convention with Box Elder county.

Chairman: BEN E. RICH. Secretary: A. R. HEYWOOD.

GREAT ADVERTISING SCHEME. C. E. Mayne is Still Working Hard for Ogden.

Yesterday THE STANDARD reporter's attention was called by Judge A. B. Critchley to some special advertising of this City, by C. E. Mayne. The judge said, "Some time since C. E. Mayne left Ogden for San Francisco, there to operate in real estate, but on leaving he stated that he had by no means relinquished his old-time ideas in regard to Ogden. Every one who knows Mayne knows what a pusher he is. Whatever else may be said of him he is a thorough hustler and a boomer. Mayne made up his mind before he left Ogden that here was one of the spots on the continent where a great city would grow up, and although for one reason or another he met with setbacks here in the work he had undertaken, he claimed that the delays and apparent failures were merely temporary and that before long he would begin again to work for the upbuilding of Ogden and would duplicate his Omaha success here."

"I will show you that Mayne has again begun the good work." The paper mentioned contained a full page advertisement of Ogden. In the center was a large railroad map showing Ogden's advantages as a railroad center. In large bold type across the head of the page was:

"Ogden, Utah, the railroad and commercial center of the inter-mountain continent."

On the left of the map was printed as follows: "Population, 1888—3,000." "Population, July 1, 1891—20,000." "No other city in the United States ever had such a great increase."

"More business transacted in Ogden than in all other cities and towns in the Territory."

"Five years from now Ogden will have a population of 150,000."

"The Ogden and Salt Lake City will be the largest city between Chicago and San Francisco."

On the right of the map was printed as follows: "Property is very low and no other place in the country presents such an opportunity for cash."

"While we have property for sale at Ogden, we do not care about making sales, our object being to attract attention to the wonderful growth and resources."

For fresh air and left her apartment to seek it below on the sofa.

The friends of George LaBlanche are making arrangements to tender him a grand benefit prior to his departure for the East, the event to take place Saturday night next in Sparks' pool room, at which time the feature will be the six-round bout between LaBlanche and Jim Williams, champion of Utah.

A very bold burglary occurred at the residence of Mr. Burt, who lives on Seventh East near the corner of First South. Jewelry valued at \$3,500 was stolen. Mrs. Burt had slipped into the back yard at about 2 o'clock, and during her absence the thief coolly entered the front door and ransacked the house.

The inquest upon the remains of Henry Arnold, found dead over the Jordan Monday, was concluded yesterday morning. The jury returned a verdict that deceased came to his death by strangulation by falling into an irrigating ditch while in an epileptic fit. It was further developed that Arnold was a Scotchman who came to Utah several years ago.

The Times of last evening says of the school election that "not only the liberal victory (?), but a most sorry showing. With a party thoroughly organized, with workers in every ward, with booties and torches, with the grand pyrotechnical display of oratory, the party made a most successful majority in one short year. And this in a fight between unorganized citizens who had made no speeches nor burned red fire, and who expended only a few dollars in money all of which went to buy tickets. Truly, it is easy to enthrone the heirs of the liberal office-holders."

From Plain City. PLAIN CITY, July 14, 1891. Editor THE STANDARD:—The election of a school trustee here yesterday was of some interest, it being conducted strictly by ballot. The Republican candidate, William H. Gaupion, was elected by a small majority. The Republican club was not desirous of taking issues upon this election, claiming that it was un-American in its principles and would not tend to good results; that the public schools should alike be free from political and sectarian influences, but the Democrats forced the issues upon us, and we think, received a very proper rebuke. The Democrats looked somewhat crestfallen last evening, in strange contrast to their jubilant countenances and over-sanguine expressions of the morning. In fact, that by another year our Democratic friends will see the folly of their course in drawing party lines upon a point of such vital interest to us all and will then meet us half way as citizens engaged in a common cause—that of education. N. V.

A Good Prospect. T. A. Perkins came in yesterday from his mining claim at Broadmoor in the northern end of Ogden valley, bringing a sack of ore, which has the appearance of being of good quality. The vein from which the ore was taken is about ten feet wide, with perfect hanging and foot walls. The ore is galena and carries about 50 per cent lead and from \$25 to \$30 in silver per ton. Only prospecting work has been done so far, but the showing for a good mine is very encouraging. Mr. Perkins has several men at work and intelligence, money and muscle bid fair to develop a first class mine.

First District Court. The following business was transacted yesterday in the first district court: In the case of E. W. Exum vs. E. A. Reed, the motion for judgment was granted and the bond fixed and submitted and taken under advisement. In the case of Helen F. Sullivan vs. Wm. J. Sullivan, order was granted for publication of summons.

County Court. The County court met in regular session yesterday. Judges A. C. Bishop and L. W. Shurtliff were appointed a committee to go to Salt Lake this morning and meet with the territorial board of equalization of taxes. The remainder of the business was mainly routine.

In Probate. In the matter of the estate of John Finzer, R. T. Pettigill was appointed administrator of the bond fixed at \$1,000. J. J. Sullivan, Newton Farr and C. A. Hursell were appointed appraisers; order for publication of notice to creditors.

Broke a Pane of Glass. On Sunday last between the hours of 2 and 4 p. m. some one threw a rock through one of the plate glass windows of the Grand Opera House. It was evidently intended for the Chinaman's place next door, but failed in its aim. A reward of \$100 is being offered for the information as to who did the throwing.

At the Grove To-day. The Fourth Ward Sunday school went out to Farr's grove to-day. They had a picnic, refreshments, and all kinds of fun by the bushes, games and amusements. The members of the school generally enjoy themselves and will doubtless do so this time.

Marriage Licenses. Marriage licenses were yesterday issued by the County clerk to the following parties: Angus L. Shukowsky, aged 54, and Mrs. Mary Shanick, aged 53, both of Ogden. Lamont B. Blish, aged 26, of Ogden, and Annie M. Anderson, of Echo, aged 19.

Off to Syracuse. The Fifth Ward Sunday school got to Syracuse on Thursday for an outing. The train leaves at 10 a. m. at all kinds, fun by the bushes, games and amusements. The members of the school generally enjoy themselves and will doubtless do so this time.

A Happy Pair. Yesterday Mr. C. W. Cantfield and wife returned from Oursay, Col. When they left here, Oursay was a very hot place and they were greeted by a host of congratulations. The happy pair will visit here with friends until Thursday and then go north to Idaho Falls. Success!

THE FAIR HAS CLOSED

It Proved a Brilliant Financial Success. SOcially it WAS A GREAT EVENT FOR OGDEN. A Meeting Will be Held To-day to Ascertain the Receipts and Expenditures of the Undertaking.

The fair closed last night. It was a success, all of which was due to the ladies of Ogden taking part. The voting was exciting last night. Mrs. Judge Henderson received the fine picture as the most popular married lady.

Mr. Jack Conliak as the favored married gentleman received the hat rack. Harry Stone got the gold watch as the most popular single gentleman.

Miss Nettie Wilson was voted the most popular young lady, and received the jewel casket. Katie McManis got the little doll. All ladies connected with the fair will have the receipts and are requested to meet at 3 o'clock this afternoon at room 19, Opera House building, and a complete statement will be made up, giving due credit to all donors. A financial statement will be made to the treasurer of the University and the money will be turned over.

THE RAILWAY CIRCLES.

Heavy Travel on the Lines of the Southern Pacific Company. The Union Pacific Being Tied Between Ogden and Evanston—A Little Accident—Etc.

Conductor Tom Ball has left Portonello for Windsor, Canada, to visit for a short time with his family. Within a short time a number of new trains will be put on the Ogden Pacific from Salt Lake City to Syracuse beach.

A carload of horses and cattle from Tacoma, Nev., for Colonel F. J. Barlow of this City, came in over the Central Pacific yesterday. The fruit and vegetable shipments from California are so heavy as they were a short time ago. Only twenty-one cases were received in Ogden yesterday.

The Woman's Relief Corps of Ogden will have an excursion to Syracuse beach some day the latter part of this month, probably on the 20th or 30th.

A railroad company has been organized at Spokane to open a line of route from that city to the great lumber yard at Priest Rapids, Wash. The company to discharge any man whose name is on the list of the company's big good standing until the garnishes have been satisfied.

Miss Minnie Haass, telegrapher at Novena, Idaho, is in the City visiting her friend Miss M. A. Carpenter, the railroad telegraph operator at the Union passenger station.

On account of changing the gauge of the San Pete Branch and Sevier Valley railway, the Rio Grande Western cannot be operated any longer between Tropic Junction and Salina on July 15th.

President Huntington of the Southern Pacific company, has appointed H. E. Huntington, a relative, assistant general manager, and it is rumored that on the first of next year the new appointee will assume entire management, superseding A. N. Town.

Large numbers of flies are coming in from Ogden all the time. They are being put on the Union Pacific main line between Ogden and Evanston. The roadbed between here and there is being improved and made one of the best anywhere. This is the first time since the first of the year that the flies have been so numerous. During the month of June a total of 13,127 passengers traveled through Ogden on the Southern Pacific company. The figures are as follows: First class, going east, 2,512; coming west, 2,945. Total, 5,457. Second class, going east, 1,171; coming west, 1,377. Total, 2,548. Grand total both ways, 13,127.

As soon as the Rio Grande Western complete their Pacific branch they will, without unnecessary delay, commence the extension of their line from Salina to Marysville and thence through the mountains to Parowan and then through Parowan to Cedar City. That, at last, is said to be the programme for the year 1895.

As train No. 7 of the Union Pacific Utah division for Salt Lake City was starting out yesterday at 3:50 p. m. and had just got on the Y, one of the two Pullman sleepers jumped the track right in front of the Union passenger station. It is not known what caused the accident. No damage was done except the breaking of the drawhead. The train was out loose from the Pullman and went on its way rejoicing, and the track was cleared in the course of an hour or so.

The Southern Pacific company have filed their annual report for the California lines. The total cash assets are \$8,961,000; gross earnings, \$34,850,000; operating expenses, \$21,896,000. In salaries for 14,521 employees, \$11,903,500 was expended. The road has 1,721 locomotives, 631 passenger cars, 14,441 freight cars. During the year forty-four employees were killed and 408 injured. Others, not employed, brought the total up to 116 killed and 646 injured.

On the Sacramento division of the Central Pacific it takes twenty-eight crews to handle the business, and they are worked pretty hard. The crews are divided into three classes, the first being the best, the second being the average, and the third being the poorest. There are five freight crews have to do all the work, they having been increased in force since the rush commenced. These five crews have to run night and day, and they are worked pretty hard. FURNIBER RETURNS

From the Election of School Trustees in the County. SOME GO DEMOCRATIC, OTHERS REPUBLICAN.

The Election, However, is no Criterion, as in Many Instances Politics did not Figure in the Selection of Trustees.

The school returns from the various school districts as secured yesterday are as follows: Huntville—The contest was made on National issues, and the Democrats won the day, electing Angus McKay as trustee against 60, polled for C. C. Waugaman.

Eden—There was no particular contest as to politics at this place but Francis Clark, Democrat, was elected by a united vote of 11.

Uintah—The two candidates in the field were Timothy Kendall, Republican, and Robert Gale, Democrat. The former was elected by a vote of 10 to 4.

Pleasant View—The election was between citizens, not on a political basis. W. E. Stuart, Democrat, was elected against Charles Erickson, 22 against 21.

Wilson—The people united on a mixed ticket and elected Barlow Wilson, Democrat, and John W. Lacey, the first two named getting 25 and the last named getting 23 votes.

Garland—This district having been recently laid off the time of the present trustees had not yet run out and there was no contest.

Burch—Here William Garner was elected. There was no party bias but all united in electing their man.

Marriott—Wm. Hedison and Timothy Berry were elected, receiving practically the same number of votes.

&lt;
