whiz: it sounds so good it can't be true. And to us the odd thing nected directly with industry and paints." is that many persons feel there must be a catch in it, although use of the unit of electric power, in "Oh go on, you can't neither" whiz: it sounds so good it can't be true. And to us the odd thing nected directly with industry is that many persons feel there must be a catch in it, although use of the unit of electric power, in "Oh, go on, you can't paint." "Some day germs than by the germs them-place of the gold unit, is suggested. "You wait! Can't I? Some day selves. Indeed, it is believed that!" If that were tried, which will not happen, the world would see some seen the pink sunset over the snow by the losson, or toxin, is transported happen. The sound sound But just what is it?

be made sound. But just what is it? A tax. Just a common little old tax of 2 per cent if you used the new money. Every time you would get a dollar bill so-called. You really would get 98 cents. Every so-called thousand would be \$980. Somebody would pay that difference. You can call it an income tax, for the bill you received would not become income until you paid 2 cents on it. Or you can call it a sales tax because you couldn't buy anything with it until you had paid and that paid and that can be used to drame. A tax. Just a common little old tax of 2 per cent if you used A tax. Just a common little old tax of 2 per cent if you used A improved machine, with great-treally amazing changes in value. An improved machine, with great-be some an income tax for the bill you can call it a sales tax because until you paid 2 cents on it. Or you can call it a sales tax because power that can be used to drame. A unit of you couldn't buy anything with it until you had paid, and the power that can be used to drag a stamps would have to be paid for with real money.

But somepody would pay. You don't really get a dollar's message around the world, seven worth for 98 cents. The contractor would absorb it and make his times a second, hardly sounds like bids higher, or the worker would stand it and need a little higher "money."

bids higher, or the worker would stand it and need a little higher The infernal nuisance would be two kinds of money. Some places would take this stamp money. Mr. Sullivan suggests it might be printed on red paper—and some folks would take only the familiar green money. And the dealer who took the red as full value would average up the loss on customers who paid im green, as he averages the cost of carrying credit customers on cash eustomers. As for being a great boon, this stamped money would amount

customers. As for being a great boon, this stamped money would amount. That will surprise many, including to this: Government would make a loan, with a self-amortizing the ghost of Thomas Jefferson. He fogture. When taxes had been paid to the full value, the loan would be paid off, as any loan is. Everybody would get 98 cents the legislature of Virginia, because would be paid off, as any loan is. Everybody would get 98 cents the legislature of Virginia, because the bitter of Virginia, because community." for a dollar except the federal treasury which would get so cents the registrative of the state complaint and made me have more dred cents. There's no catch in it, but no bonanza, either. Value the American people of whisky, that too." Sold by all druggists. is made by human labor and real money worth anything doesn't in his day ruined half the people Write to Dr. Pierce's Clinic, Duffale, N.
